FAMILY FURNISHERS SINCE 1930

Parker Knoll Hazel

As part of our effort to be more conscious to the planet, we are delighted to showcase Hazel. Each piece in the evolve collection is recycled. Moreover, every sofa repurposes around 170 bottles so the only thing you need to feel guilty about is how comfortable you are when sitting in Hazel's deep and contouring cushions.

Hazel's naturalistic and timeless silhouette is built to last by our specialist craftspeople in rural Nottinghamshire and with a 25-year guarantee, we can endeavour to minimise waste together.
