Hypnos Wool Origins 10 Mattress

Designed for absolute luxury, the Wool Origins 10 is a beautifully considered pocket sprung mattress, with a smart, tailored look and layers of sustainably sourced materials, including 100% British wool traceable to Red Tractor assured farms and a layer of natural Talalay latex. The Wool Origins collection has copious amounts of traceable, assured wool. In fact, this seasonal turn mattress has over 7 fleeces of pure wool per mattress. Wool can naturally regulate body temperature and moisture, helping to keep you cool in the summer and cosy in the winter, but it's also naturally antibacterial, making it an ideal fibre for a mattress. The Wool Origins 10 features an extra layer of breathable natural Talalay latex. Sustainably sourced, this material is extremely resilient but also soft, adding a luxurious feel to the bed. Hypnos' expertly engineered pocket springs, ReActivePro, with 10 active turns, provide total body comfort whilst Triple Edge Protection gives true edge-to-edge support. Relax on a responsibly sourced unbleached cotton and viscose sleep surface, which safely and naturally meets all furniture and safety fire regulations without the need for synthetic flame-retardants. The Wool Origins 10 is a double-sided mattress designed to be turned with the seasons. The Origins range is designed to be paired with a sprung divan base.
